

Sentrex™ RS

Reduced Liability

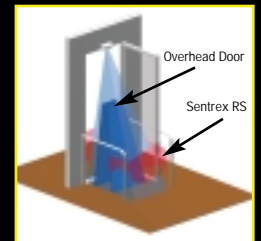

THE STANLEY SENTREX RS PROVIDES REDUNDANT SAFETY FOR SWING DOOR SYSTEMS.

Designed to satisfy the demand for improved safety for swing door applications, Stanley's Sentrex RS is the redundant safety system — providing overlapping presense detection by using both an overhead and an on-door sensor — available as an option or as a retrofit upgrade for an existing swing door system. The Sentrex RS is available for single or pairs of doors on many Stanley swing door systems.

- Provides redundant safety sensor coverage of your swing path area.
- Meets and exceeds the market's increased demand for enhanced sensor coverage — over and above the current safety codes.
- Minimize liability claims.
- Design provides easy installation.

The Sentrex RS is a redundant safety system for swing door applications. It helps owners reduce their potential liability.

The Sentrex RS system uses an overhead sensor and the on-door Sentrex sensor to provide dual protection.

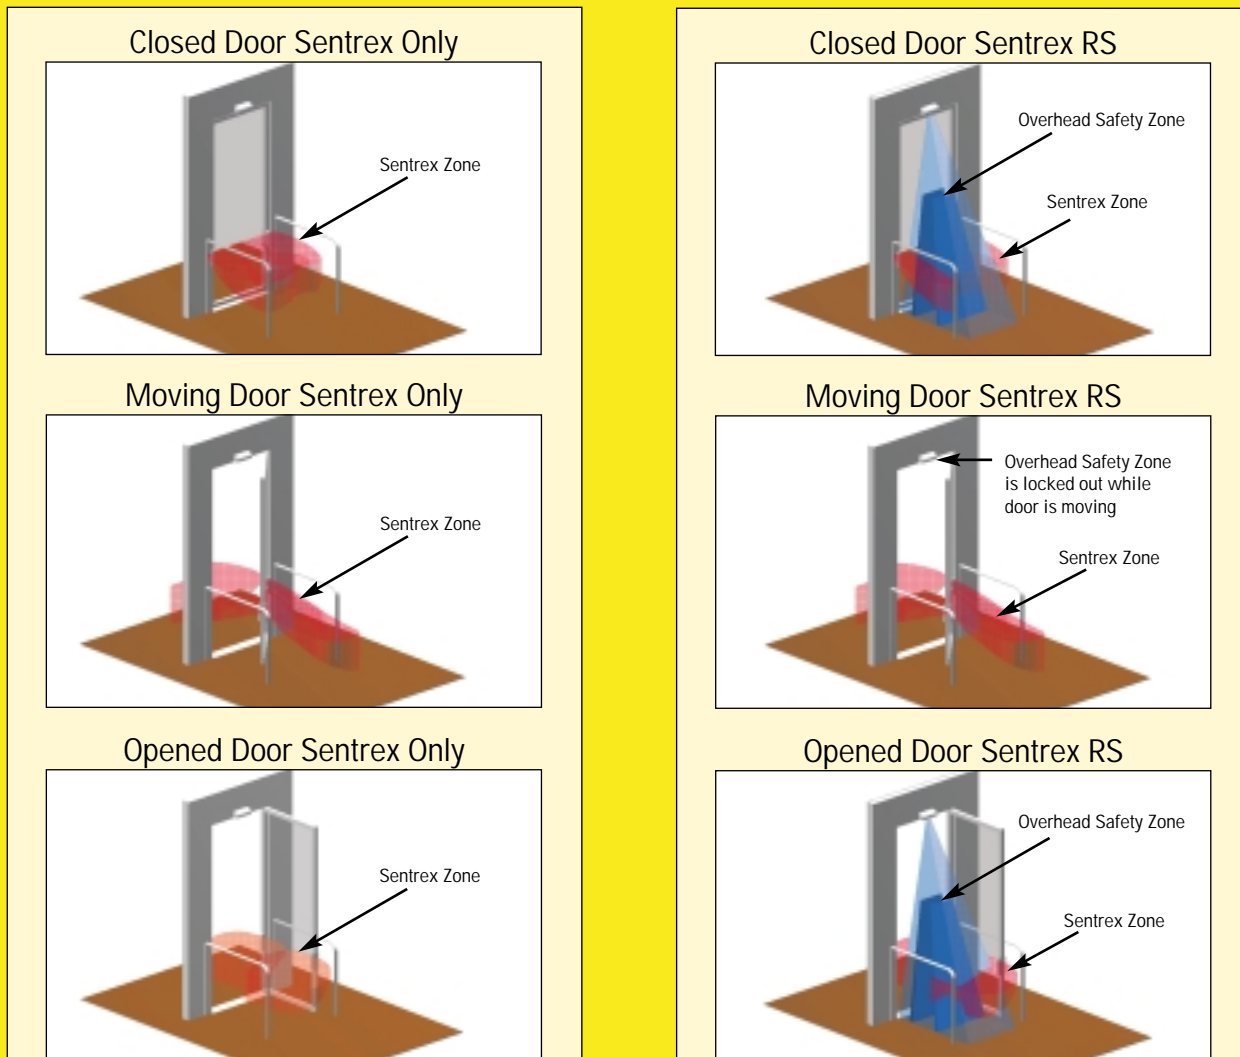

Available as a new equipment option or as a retrofit upgrade for existing systems — single or pairs of swing doors.

Easily interfaced with many Stanley swing door systems.

Sentrex™ RS

THE SENTREX RS KIT INCLUDES:

One overhead safety sensor. One pluggable motor sensing wire harness. One lock-out relay.

PRODUCT APPLICATION:

Sentrex RS can be applied to both new and existing Sentrex swing door systems. The Sentrex RS is designed for application only to Stanley systems and only door systems with the current version of Sentrex 3. If a previous version exists, an upgrade to Sentrex 3 is required.

Stanley Access Technologies designs, manufactures and markets automatic door systems worldwide.

For more than 65 years, we have set the global standard for smooth, quiet operation, user safety, design flexibility, quality, reliability and ease of installation. Our service force is North America's largest and most comprehensive network devoted to the installation and maintenance of automatic door systems. This network combines the global resources of Stanley with the unmatched customer responsiveness of local organizations to ensure every door we sell and install provides our customers with worry-free operation.
